Vu Quang Phuc

Libra, 2004

I am a self-motivated individual who enjoys staying busy through constant learning and personal growth. Majoring in AI, I aim to understand how technology shapes the future and apply it meaningfully in my work. I believe improvement comes through experience, correction, and progress. I'm always open to new challenges that help expand my skills and life experience.

🎓 EDUCATION

Hung Yen University of Technology and Education

Hung Yen • September 2022 - Present

Engineer of Computer Science, Computer Vision, GPA: 3.3/4

I'm currently studying Computer Science, where I focus on software development, artificial intelligence, machine learning, and data science. The program combines strong theoretical foundations with hands-on experience through real-world projects. I've worked with various technologies and tools across areas like deep learning, web development, and system design, which has helped me build both technical skills and practical problem-solving abilities.

💼 PROFESSIONAL EXPERIENCE

Project: Olist Store Analysis @ Data Analysis

Hung Yen University of Technology and Education • October 2024 - November 2024

This project focuses on analyzing a real-world e-commerce dataset from Olist, Brazil's largest online marketplace. Aiming to understand customer behavior, seller performance, and key business metrics through data cleaning, exploration, visualization, and predictive modeling.

Technologies Used:

- Language: Python
- Libraries: Pandas, NumPy, Matplotlib, Scikit-learn

- Tools: Jupyter Notebook, Conda

Achievements & Outcomes:

- Cleaned and integrated multiple datasets including orders, customers, sellers, and products.
- Performed exploratory data analysis (EDA) to uncover insights on sales performance and customer satisfaction.
- Built predictive models to identify potential trends and future performance metrics.

(*) Achievements: Final Grade: 10/10

⊕ VOLUNTEER & COMMUNITY ENGAGEMENT

Volunteer Student @ Utehy Student Volunteer Club

Hung Yen

The Volunteer Student Club at UTEHY is dedicated to organizing charitable activities, especially in collaboration with local pagodas. The club frequently supports temple events and takes part in community service projects, offering help where it's most needed. It's a wonderful and meaningful organization that promotes compassion, teamwork, and social responsibility among students.

⚙ SKILL AND KEY ADVANTAGES

Microsoft Office
★★★☆☆

Utilizing AI to leverage Office Tools like Word, Excel, PowerPoint

English Communication
★★★☆☆

Confidently communicate in English with native speakers

Soft Skill
★★★★☆

Adaptability
★★★★☆

AI-driven Skill
★★★★☆

Using AI tools for work, automation tasks.
